SKILLS

| | |
|-------------------------------|---|
| Programming Languages: | Java, JavaScript |
| Databases: | MySQL |
| Frontend Technologies: | ReactJS, HTML, CSS |
| Backend Technologies: | Spring Boot, JPA, Hibernate |
| Soft Skills: | Adaptability, Teamwork, Problem-solving |

PROJECTS

React E-commerce Storefront Application

Description: Built a fully responsive single-page e-commerce application using React. Users can browse products, add items to the cart, and view cart details.

Technologies Used: ReactJS, JavaScript, HTML ,CSS

Key Achievement:

- Developed reusable components for product listings, cart, and navigation using React.
- Implemented state management with React hooks to handle cart operations.
- Designed a clean, mobile-friendly UI with Bootstrap and CSS Flexbox.
- Utilized React Router for smooth client-side navigation between pages.

Ecommerce StoreFront Application

Description: Built a responsive, full-stack e-commerce application allowing users to browse products, add items to cart, and place orders securely.

Technologies Used: Spring Boot, ReactJS, MySQL, Bootstrap

Key Achievement: Implemented secure user authentication, product search, and integrated REST APIs for seamless frontend-backend communication.

EXTRA-CURRICULAR ACTIVITIES

- Completed an ISRO-certified workshop on "Geo-data Sharing and Cybersecurity," gaining experience in data security and remote sensing technologies.

LANGUAGES

- English, Telugu

DECLARATION

- I hereby declare that the above-mentioned information is accurate to the best of my knowledge and belief.
